

### SR2760-2S-S2+

RAIDON InTANK SR2760-2S-S2+ has a patented design that allows two 2.5" SATA drives to be fitted into one 3.5" drive space! It's equipped with optional RAID 0 to enhance the speed of transfer compare to a regular hard drive or switch to RAID 1 for an efficient and securer data backup.

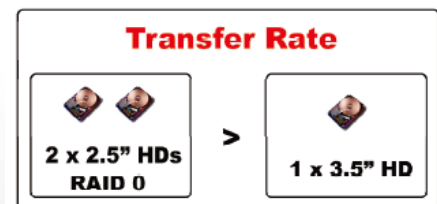

- **Upgrade to RAID with ease**

Upgrade your system to RAID array storage through install the SR2760+ to the standard 3.5" drive slot.

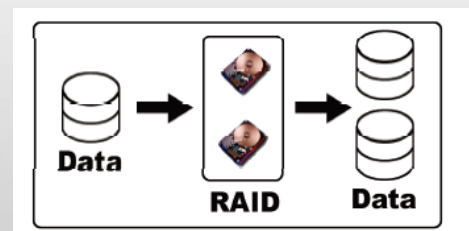

- **Enhances transfer speed without delays**

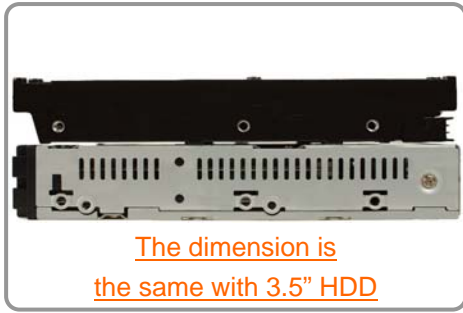

Optional RAID 0 configuration greatly increases the transfer speed up which a standard hard drive can't reach.

- **Real-time backup for data security**

Optional RAID 1 configuration provides drive mirroring or duplication of each other without data loss. If one of the drives is failed, simply replace with a new drive (same capacity or greater) without shutting down the system and the data will rebuild to the new hard drive automatically. That means the operation system will keep working without down time as the backup hard drive in the SR2760 will sustain the system working!

Model No.	SR2760-2S-S2+
ASIC	SR2045
Device Interface	SATA 3.0 GHz
RAID Level	RAID 0, 1
Support Hard Drive	2x2.5"SATA 3.0Gb/s hard drive
Support Single HDD Maximum Capacity	1TB
Hot-Swap	Yes
Auto Rebuilding	Yes
LED Indicators	Yes
Cooling Fan	1xSUNON 3cm Fan
Power Supply	SATA Interface
Operating System	Windows, Linux, Mac & Windows Vista
Certifications	CE & FCC
Packing Content	CD (User Guide), Accessory Kit
Dimension	102Wx147Lx 26H mm
Net Weight	0.4 kg

The product specification is subject to change without notice.

Logistical Data			
Dimension of Article:	102Wx147Lx26H mm	Net Weight:	0.4 kg
Dimension of Packing Box:	135Wx200Lx55H mm	Gross Weight (incl. packing):	0.6 kg
Dimension/Carton:	416Wx568Lx244H mm	Total Weight:	18.5 kg/carton
Packing Unit:	32 units./carton	Country of Origin:	Taiwan
EAN-No.:	Black:4711132862096		
UPC-No.:	Black:884826502586
