

**ST5650** series provides JBOD function, it introduces SATA interface which designed for DVR, Graphic Design, Audio/Video Editors who have requirement of large storage capacity. Supports largest capacity of single HDD up to 750GB, the transfer rate is up to 300MB/s through eSATA host interface.

Stable outlook design with sustained performance and hot-swap tray module, the ST5650 series will be the best choice of external storage device. If you desire to build the RAID subsystem in the future, it just need to purchase another one RAID storage which equipped with 4 eSATA ports (ex. SR5650-4S-U3D). The total solution will be 8 bays RAID storage after collocated with an SR5650-4S-U3D; it provides you a newly 4+4 expansion feature!

### Key Features

- **4 Bays Storage Device**

It allows you to install 4 HDDs once and share with different clients/servers independent; or stored your data depends on different data format to achieve device sharing and capacity sharing feature. No need to buy extra storage for each servers/clients.

- **eSATA Host Interface**

To use 4 eSATA host interface to collocate with another one storage device which equipped with same eSATA ports (ex. SR5650-4S-U3D), the total solution will be upgraded as a external RAID subsystem.

- **Swappable Tray**

To use RAIDON swappable tray module series allows you applying to other storage series easily and achieving data sharing purpose.

### Product Specification

<b>Model No.</b>	<b>ST5650-4S-S2</b>
<b>Host Interface</b>	eSATA
<b>Drive Interface</b>	3.5" SATA I / SATA II
<b>HDD</b>	4
<b>Single Capacity</b>	Up to 750GB
<b>FAN</b>	1 x 8 cm
<b>Power Supply</b>	200w Power, 100V~240V
<b>LED Indicator</b>	Yes
<b>Dimension (mm)</b>	177W x 270D x 231H
<b>Weight (kg)</b>	6.2
<b>Accessories</b>	eSATA Cable / User Manual / Accessory kit

\*The product specification may be changed and without notice.

- **Support SATA Hot-Swap**

No need to shut down the system then allows changing the HDDs, it can avoid the shut down trouble of online service.
