

## ST7610 Series

ST7610 Series support four SATA hard drives (ST7610-4S-U5 also supports SAS hard drive). It is a system which contains JBOD function and is able to be collocated with a RAID card to be formed into a RAID subsystem. It provides eSATA, FireWire800, USB2.0 and InfiniBand host interfaces. It's designed for DVR, Graphic Design, and Audio/Video Editing applications that require large storage capacities.

The **ST7610-4S-S2P** utilizes chipset that supports the **Port Multiplier** function. Only one eSATA cable is required to connect the system to see four SATA hard drives for storage. It allows you to obtain four hard drives' capacities at once and benefit from the transfer performance of up to 300MB/Sec. to satisfy the need for big data storage and high transfer performance demands.

### ※ Supports Port Multiplier Function (ST7610-4S-S2P)

The **ST7610-4S-S2P** utilizes chipset that supports the **Port Multiplier** function. Only one eSATA cable is required to connect the system to see four SATA hard drives and the transfer performance of data throughput will not downgrade. It's like connecting 4 separate hard drives to the systems without the hassles of connecting 4 cables separately for each drive. All you'll need is one cable connection.

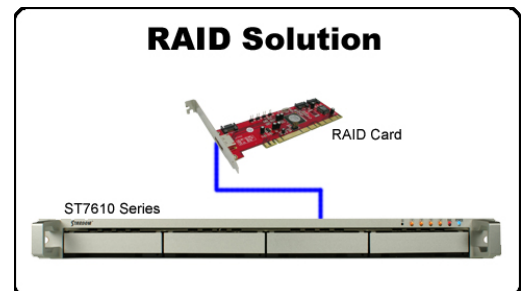

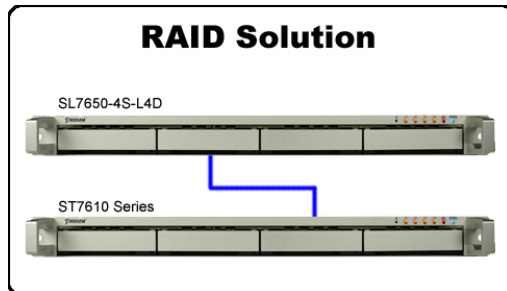

## ※ Supports drive Hot-Swap

Besides the ST7610-4S-WBC, the ST7610 Series supports drive Hot-Swap which enables you to exchange a failed hard drive or a new one without having to shut down the system.

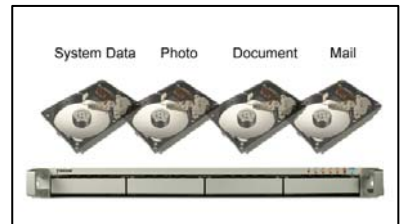

## ※ RAID Function upgradeable

When collocated to a RAID device such as SATA RAID card or a STARDOM SL7650-4S-L4D, it can then become a RAID subsystem with efficient data security functionalities.

## ※ Data Categorize

ST7610 series is capable of supporting four big hard drives at once. You are able to save data by categorizing each hard drives (depending on your requirements and preferences) and reduce your time in searching for the correct files.

## ※ Product Specification

Model No.	ST7610-4S-S2	ST7610-4S-WBC	ST7610-4S-S2P	ST7610-4S-U5
Host Interface	eSATA x 4	FireWire800 x4 USB2.0 x 2	eSATA x 1 <b>(Port Multiplier)</b>	eSATA x 4 <b>infiniBand x 1</b>
Drive Interface	SATA I or II			<b>SAS or SATA</b>
Support RAID level	JBOD	JBOD / RAID 0	JBOD	JBOD
LED Indicator	Yes			
Power Supply	Input: 100v~240v; Output: 200 Watts			
Support Hot-Swap	Yes	No	Yes	Yes
Cooling Fan	4cm ball bearing Fan x 2			
O.S Require	None			
Dimension (mm)	430W x 420D x 43H			
Weight (kg)	7			
Certification	CE / FCC			
Barcode	4711132865578	4711132865561	4711132866117	4711132865967
