Mini RAID Series - Data Backup Cabinet

Mini RAID Series are designed with the concept of “Laptop’s best data manage partner”. Both of them are compatible with 2.5” SATA HDD, lower power consumption than regular 3.5” HDD storage device and perfectly suitable for laptop with its mini size.

People are accustomed to taking digital photos, working with computer and saving all information on the computer. In case hard disk failure cause the irreplaceable information lost, saving this precious data separately and backup all information periodically are importantly. Thus, undoubtedly **Mini RAID Series** are the best choice for the laptop’s user.

Small But Intelligent

With mini size with 2.5” SATA HDD, Mini RAID Series are more suitable for laptop users.

Silent Operation

Coming with lower rotation speed of the cooling fan, Mini RAID Series make less noise than the 3.5” hard disk does.

Eco-Design

Mini RAID Series are compliant to RoHS and reduces power consumption.

With Specific Mirroring Function

Mini RAID - Data Backup Cabinet, coming with the advanced technology, transfers RAID 1 (Mirroring) technology from 3.5”HDD to 2.5”HDD. With this mirroring function, there is no worry about HDD failure. When the user saves data on the first HDD, the system will backup it to the second one automatically. Once one of the HDD is failed, replaced the failed hard disk , the system will auto-rebuild all data to the newly replaced HDD.

R2-2S-B2 / R2-2S-WAC

- USB 2.0 or USB2.0+ Firewire400 Combo interface
- 2.5” SATA HDD
- Supports 2x Portable SATA HDDs
- Genuine and Smallest RAID Design

Mini RAID Series - Data Backup Cabinet

Important Data Backup

It will be a pity, once your important memory or records saved on laptop's HDD are failed because of your laptop crashed. However, if these data is saved in **Mini RAID -Data Backup Cabinet**, with RAID 1 mirroring function the system will backup automatically. Once the HDD is failed, the system will rebuild and get all info back.

Backup Creative Works

For SOHO workers, the original ideas are important than anything, therefore, they can not endure once they are failed.

Saving your unique ideas in **Mini RAID-Data Backup Cabinet**, under RAID 1 mode, the backup function will protect these data automatically.

Model No.	R2-2S-B2	R2-2S-WAC
Microprocessor	KTC2044+Cypress68300	KTC2044+Cypress68300 +OX911Plus
Host Interface	USB2.0	USB2.0 + Firewire400
Drive Interface	SATA	
No. of HDD	2	
Largest Capacity	Based on HD	
RAID function	RAID 1	
Hot-Swap	Yes	
Cooling Fan	3cm x 1	
Power Supply	Input: 100~240v Output: 12v, 3A,36W	
Support O.S	Windows XP above , MAC O.S 10 above, LINUX Kernel 2.6 above	
LED Indicator	System Power, HDD Access, HD Power, Fan Failure	
Dimension (mm)	103.1 x 139.65 x 47.8
