RAIDON

GT1660-SB3

### External Storage Enclosure with
High Performance & Big Capacity

Removable Tray Design

Heat-dissipating Aluminum Case

Space-saving Foot Stand

UASP Ready

Coming with USB 3.0 transfer interface which is 10 times faster than USB 2.0, GT1660-SB3 is suitable for large file transmission which can save lots of waiting time, especially the ever-increasing multi-media files of GB size; in addition, GT1660-SB3 supports also eSATA transfer interface that ensures data transmission is always supported with a high transfer rate even if you do not have a USB 3.0 supported environment!

USB 3.0 (UASP) + eSATA High Transmission Host Interface

Support USB 3.0 & eSATA host interface, you can choose either host for use according to your demand and the environment.
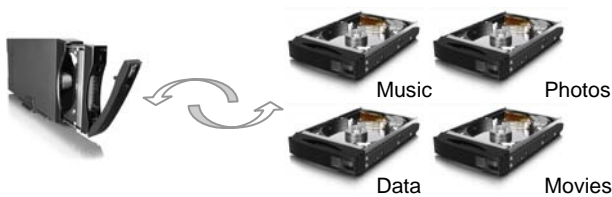

eSATA ← → USB 3.0

Extensive Application Scope

GT1660-SB3 houses a 3.5" HDD, with its high transfer interface which is suitable for storing large digital files from digital camera (DSC)、digital video (DV) and blue-ray DVD. Besides, GT1660-SB3 supports different operating systems.

Removable Tray Design Facilitates Data Mobility

Removable tray design not only enables you to exchange HDD easily but also facilitates data mobility.
