## GT1670-SB3/GT1670-WSB3 Quick Installation Guide

### Product Diagrams and Contents of Product Package

GT1670-SB3 / GT1670-WSB3 Front View

- 1 LED Indicators 2 Tray Button

GT1670-SB3 Rear View

GT1670-WSB3 Rear View

- 1 1394b Port 2 Lock Hole 3 eSATA Port  
4 USB3.0 Port 5 Power Switch 6 Power Socket

NOTE

- Please be noted that two host interfaces cannot be used at the same time, data transmission can only be done through an interface with a computer.
- When changing to another host interface, please power off GT1670 and connect to another port before powering it on again.
- Please power off GT1670 before exchanging HDD, and then power it on after the HDD is exchanged.

v 1.0(April .2015)

### Hardware Installation

- Press tray button and take out the tray.
- Install your hard disks into the removable trays and secure them with the screws from accessory kit. This will protect your hard disk from any unnecessary movement.
- Connect GT1670-SB3 via either USB3.0 or eSATA to the computer.  
Link AC power cable to the adapter and then connect each connector to GT1670-SB3 and computer, then, power on GT1670-SB3.

3

- Connect GT1670-WSB3 via either USB 3.0, eSATA, or 1394b cable to the computer.  
Link AC power cable to the adapter and then connect each connector to GT1670-WSB3 and computer, then, power on GT1670-WSB3.

- Hardware Installation is completed and the OS will automatically recognize your hard drive once the computer booting is done. If your hard drive needs to be formatted, please follow the format procedures. After the formatting is completed, you can start to use the hard drive.

### Precaution before Application

- Please ensure that the hard drives are free of bad tracks before using, otherwise, it may cause system crash in turn resulting in data loss.
- No matter which host interface is used for connection, before taking out the hard drive, please safely remove it via computer operating system.
- To avoid data corruptions or data loss, it is strongly suggested not to withdrawing hard drive from the device or powering off the device while data is accessing.
- Do not remove the hard drive(s) while the system is powered on. Always remember to power off the system when removing the hard drives.

Thank you for choosing product from RAIDON Technology Inc.
